

CONSULTATION EVENT

Have your say about proposed changes to criteria for NHS treatment.

2-4 pm on 30th March 2017 at

COMMUNITY HOUSE

NHS Enfield Clinical Commissioning Group (CCG) is proposing changes to criteria to access some treatments available on the NHS, such as bunions, hearing aids, hernias and knee replacements .

Enfield CCG want to hear your views on the proposals.

This consultation event offers the chance

- to ask senior representatives from Enfield CCG how the proposed changes could affect your service users; and
- to have your say on the approach you would like them to take.

Light refreshments will be provided.

(Please note there is another consultation event about the proposed changes, hosted by Healthwatch www.healthwatchenfield.co.uk, on 22nd March. You do not need to attend both events.)

Please let EVA know if you would like to attend the 30th March event.

EVA will provide Sign Language Interpreters, so please also let us know if you will need this service.
